

Helm Bed

The Helm bed is crowned by its headboard, two live edges make it especially dramatic without losing the natural elegance of the wood. It is connected to the base by blackened steel brackets, lending an industrial aspect to the organic.

Inspired by the industrial waterfront of Brooklyn, the solid ash that makes up the bed has been sandblasted, giving the material a raised grain that takes on the texture of weathered driftwood.

- Part of the Helm Collection
- Shown King Size, in sandblasted Ash with blackened steel.
- Hand applied oil finish.
- Available in a variety of American hardwoods.
