

Quay Chair

Like river waves meeting the edge of lower Manhattan, the Quay Chair features a curved seatback that intersects with strong vertical supports, a contrast that creates architectural angles.

A soft upholstered leather cushion balances with the innate density of the wood. Viewing the chair from different angles reveals new dimensions and details like traditional joinery in the legs—the piece seems to move as you look at it.

- Part of the Helm Collection
- Shown in natural Walnut with bronze leather.
- Hand applied oil finish.
- Available in a variety of American hardwoods.

Standard Proportions:

31 ½”L x 20”W x 21”D
