

## Talisman Bed

The Talisman bed is crowned by its headboard, a slab of walnut that has been split and rejoined horizontally so the headboard extends upward at an angle.

The headboard's two live edges make it especially dramatic without losing the natural elegance of the wood. It is connected to the base by blackened steel brackets, lending an industrial aspect to the organic.

- Part of the Wishbone Collection
- Shown Queen Size, in natural Walnut with blackened steel.
- Hand applied oil finish.
- Available in a variety of American hardwoods.
